MOBILE TOOL TROLLEYS

Keep your tools organized with Blika, PreWo, and Indeco double-sided tent trolleys – the perfect solution for an efficient and well-organized workshop!

These trolleys are designed with thoughtful functionality and maximum flexibility, ensuring your tools are always within reach.

The robust swivel wheels (Ø 125/150 mm depending on the model), two of which have brakes, combined with the low center of gravity, make the trolley easy to maneuver - even when fully loaded with up to 300 kg of tools.

Flexible options:

- Choose between angled or straight-mounted tool panels.
- Add practical cable holders for cable reels - with the option to pull the cable through the front. Additional dividers can be purchased to create more compartments for screws and other small items.
- Cable holders are easily mounted on both Blika and PreWo tool panels.

Customize all tool trolleys to your needs:

Blika tool panels:

Hole size 10 x 10 mm, center distance 34 mm - for Blika hooks and fittings.

PreWo tool panels:

Hole size 10 x 10 mm, center distance 20 mm - for PreWo hooks and fittings.

Indeco tool panels:

Hole size Ø 4.2 mm, center distance 12 mm - for Indeco hooks and fittings.
