Mobile Hotel

MINIMIZE MOBILE DISTRACTIONS

– in the classroom and keep students focused on learning!

For quite some time, there has been a strong focus on student engagement during lessons, and one effective way to support this is by collecting mobile phones at the beginning of class.

Blika's Mobile Hotels are made of steel and offer storage space for 30 mobile phones. They are easy to mount in schools and educational institutions and ensure that phones are stored securely and conveniently during lessons.

Many options

The mobile hotels are available in two sizes, in a wide range of colors, with both glossy and textured finishes, and with various locking options (they can also be delivered without locks, allowing schools to purchase locks compatible with their existing locking systems).
